

18. De-installation of the 9th Commandment Window

BBC cameras at the ready

Practice makes perfect – using a cardboard mock-up

Preparing the top panel for removal

Marie being interviewed before the de-installation

The top panel comes down

First Panel safely down and recorded on camera - no pressure then!

Now the big panel comes down

One small step for man, one giant leap for a Boppard panel

Phew - The panel has landed!

Megan protects the panel - nothing escapes the camera!

Kenny and Andrew at work on the final panel

And here it comes...

Preparing the final panel for transport

Job well done - and all recorded on camera

Only one Boppard window left on display (on the right)
